“Technology can be our best friend, and technology can also be the biggest party pooper of our lives. It interrupts our own story, interrupts our ability to have a thought or a daydream, to imagine something wonderful, because we’re too busy bridging the walk from the cafeteria back to the office on the cell phone.”

-Steven Spielberg

Remember when these forms of technology ruled our personal lives? New computers, smartphones, digital music, texting, social media and many other means of communications has changed the way we think.
